Subject: Re: CPR Training!

Our assistants took 6 hours of training all together (3 hours for 2 sessions) They not only learned CPR but how to use oxygen properly as well as how to use some large emergency kits we have on premise...Maybe check out the American Heart Association web site! Looks like you could do some on line training or even find training for more programs through them?

You have a wonderful Easter as well!
Lesley

Thank you Lesley, really appreciate it, I even have already had this training apparently!
Was it all that they learned? I expected a lot more... Jeffrey said that is was a long course for all his assistants. :))

You are amazing, thank you! Now I will be able to revise it when necessary!

Wish you happy and blessed Easter! Full of love and happiness!
Cheers,
