In comment to your notes below...=

1. =!--[endif]-->The sink cabinet can be made as note= however I cannot move the trash to the end of that run as that is a shallo= cabinet. Do you want the trash to remain under the sink? It can as drawn.<=:p>

2. The upper cabinets were drawn as stand=rd sizes. This changes them to non-standard also the symmetry at the range i= off.

3. </=pan>Enclosing the space above the m=cro isn't an issue.

4. &=bsp; The pullo=t pantry is very expensive and was not in the budget.

</=>

Please advise...

Thank yo=

Hi=Rita,

Please see the attach=d notes I've made on the plans I think it makes sense to have the fridge to=ards the opposite side of the kitchen closer to the entrance because of the=direction the door opens. I don't like the concept of the tall pantry havin= the doors open towards the outside of the kitchen. Is it an option to put a=tall pull out pantry sort of thing there instead, then the fridge beside th=t?. Also, I moved the trash to the opposite side of the kitchen so it can b= symmetrical under the sink. I would also like it enclosed above the microw=ve. Please let me know if all my notes make sense and if you have any quest=ons. thanks
