i'm glad you survived. for some reason, i continue to have helicopter dreams. i wonder what my mind is trying to tell me.

yes, i will indeed be in town when you're here. let me know when you arrive. the little gizmo is called, "irock." although i believe there is a newer, more advanced version of it now. i don't know what it's called, but someone at a Mac store would.

ciao.
