LA tonight. That's good. Kerrey did a good job, he's no Clinton, but a
solid job. Someone needs to help him as he made 5 or 6 mistakes that he
shouldn't be making. Going to try and help him out some. Could be fun.

Headed out to dinner. Going to be a strange night. Will you be up late?

What are you talking about - everyone knows how to locate the Gspot - there
are direction on map quest - as for Nessy - she is a regular now and poses
for tourists, big foot is a little less well know, but is a very familiar
presence in the Himalayan mountains where he convenes with the monks on a
daily basis. As for the on off switch - I'll be happy to guide you to it
