Subject: USVI

I don't know whether you also acquired the Greater St.=James island last year, as was suggested in at least one news report yeste=day. I saw some of the coverage of the damage to USVI and other Caribbean =islands today on the Rachel Maddow show, and on that heard an interview wit= the governor of the VI. Seeing all that severe destruction of even hefty =structures, and things like air traffic control towers, made me feel badly =bout the sort of damage suffered by all the buildings and facilities (and =oats?) that you put your care, attention and resources towards.

</=iv>

Other than concern about anyone you know or employ being hurt in t=e storm, I suppose my key short-term concern is about the integrity and us= of the utility pipe from Little St. James to St. Thomas and about water a=d power on the Greater island, if applicable. Plus, I suppose, security.=C2◆

I can only imagine how disappointed and ups=tting this monster storm has been for you. Sorry.
I'm pretty=reachable on the phone during Pacific time daytime after 10am PDT.
